ServTech Tips to Avoid Water & Fire Damage

- Make sure you have a smoke detector on every floor and change smoke detector batteries often
- Clean smoke and fire dampers
- Clean kitchen hood exhaust and dryer vents
- Check flashing to prevent roof leaks and replace worn roof shingles
- Add extra insulation to the attic to prevent ice dams and water damage
- Remove debris from gutters and clear downspouts
- Seal foundation cracks
- Shut off water lines to all outside spigots
- Insulate plumbing pipes in unheated areas
- Develop an emergency plan with your family
